

RUSHABH SHAH

SOC Analyst | SIEM Monitoring | Threat Detection | Incident Response

Vadodara, Gujarat, India | +91 8347258725 | rushabhshah5001@gmail.com

[LinkedIn](#) | [GitHub](#) | me-portfolio-gold.vercel.app

PROFESSIONAL SUMMARY

CompTIA CySA+ certified SOC Analyst with hands-on experience in continuous security monitoring, alert triage, log analysis, and incident escalation across endpoints, servers, and network devices. Proficient with Wazuh and Splunk SIEM, Wireshark, and Nmap, and applies MITRE ATT&CK and the Cyber Kill Chain to investigate suspicious activity and separate true threats from false positives. Python-capable analyst who builds security tools and automates repetitive analysis. Clear communicator who documents findings so response teams can act quickly.

TECHNICAL SKILLS

SIEM & Detection: Wazuh, Splunk, Alert Triage, Event Correlation, Log Analysis, Detection Rules & Dashboards, IOC Analysis

Threat & Incident Handling: Incident Response, Escalation & Documentation, Threat Hunting, MITRE ATT&CK, Cyber Kill Chain, Phishing Analysis, Brute-Force Detection

Network & Endpoint: TCP/IP, DNS, HTTP/S, VPN, Firewalls, IDS/IPS, Network Traffic Analysis, Windows Event Logs, Linux Logs

Tools: Wireshark, Nmap, Burp Suite, Metasploit, Git

Scripting & Systems: Python, Bash, JavaScript, HTML, Windows, Ubuntu, Kali Linux

Vulnerability & Risk: Vulnerability Assessment, Risk Assessment, Security Documentation

PROFESSIONAL EXPERIENCE

Cybersecurity Analyst (Full-time)

Sep 2026 – Present

CyberTech Shield | Vadodara, Gujarat

- Monitor security events across SIEM, endpoint, and network telemetry to detect and investigate suspicious activity.
- Triage alerts, validate context, and distinguish true positives from false positives before escalation.
- Document investigation findings and escalate potentially malicious activity with the evidence needed for response.

SOC Analyst Intern

Feb 2026 – Aug 2026

CyberTech Shield | Vadodara, Gujarat

- Monitored and analyzed alerts and logs in Wazuh SIEM across endpoints, servers, and network devices.
- Investigated failed logins and suspicious behavior through log correlation and event analysis, mapping findings to MITRE ATT&CK.
- Performed incident triage, escalation, and documentation in line with SOC and incident response procedures.
- Used Wireshark, Nmap, and Linux utilities for traffic analysis and security investigation.
- Configured alert rules and dashboards to improve detection coverage and security visibility.
- Supported vulnerability assessments and gained practical experience in day-to-day SIEM operations.

SECURITY INVESTIGATIONS

Phishing Email Investigation | MITRE ATT&CK T1566

[View Report](#)

- Analyzed sender details, email headers, URLs, and IOCs to determine intent, document the threat, and support escalation.

Brute-Force Attack Investigation | MITRE ATT&CK T1110

[View Report](#)

- Correlated authentication logs, source IP activity, and login patterns to confirm brute-force behavior and recommend response actions.

PROJECTS & RESEARCH

- SOC Home Lab (Wazuh SIEM):** Built a hands-on lab for SIEM monitoring, threat detection, and incident response practice.
- Network Packet Analyzer (Python):** Captures live traffic and inspects TCP, UDP, ICMP, and IP packets.
- Multithreaded Port Scanner (Python):** Identifies open ports and active services for network security assessment.
- HTTP Header Scanner (Python):** Detects missing security headers and common web misconfigurations.
- Published Research:** *Zero Trust Architecture in Cloud Security* – identity verification, least privilege, and cloud security principles.

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Parul Institute of Computer Applications, Parul University | CGPA: 8.34

Bachelor of Computer Applications (BCA) – Cyber Security & Forensics

2021 – 2024

Parul Institute of Computer Applications, Parul University | CGPA: 8.40

CERTIFICATIONS

- CompTIA CySA+** – Cybersecurity Analyst | **LetsDefend** – SOC Analyst
- Maltego Academy** – Cybersecurity Investigations | **Splunk Education** – Free Training | **Wazuh** – Documentation & Lab
